For Immediate Publication

Recover Lost VBA Passwords in Just Three Clicks

August 2010. Passcovery Ltd. – the developer of innovative password recovery software – releases the latest version of Atomic VBA Password Recovery, 2.30.

As always, Atomic VBA Password Recovery 2.30 recovers lost or forgotten VBA passwords to Microsoft Office 95-2003 files **in just three clicks**. The software recovers passwords instantly during the file launch process.

Version 2.30 offers significantly improved compatibility with Microsoft Office XP files. In rare cases when a VBA password cannot be recovered immediately, Atomic VBA Password Recovery 2.30 replaces it with a known, pre-installed password and restores access to the VBA code for the file's macros.

Key Advantage
Atomic VBA Password Recovery is 100% guaranteed to provide instant results. The program supports Microsoft Access/Excel/Word 95-2003 files (.mdb, .xls, .doc).

The Proven, Affordable Solution
Accent VBA Password Recovery 2.30 runs on all Microsoft Windows operating systems from Windows 95 to Windows 7. A home license costs just $30, and a corporate license costs $40.

About Passcovery Ltd.
Passcovery Ltd. develops innovative Windows solutions for recovering lost passwords. Today the company offers 20 different password recovery solutions that support most popular formats, including Microsoft Office files, ZIP archives and email clients.
